Kim Walker-Smith

I take a breath and breathe you in
Peace that I can't understand
In your open arms my heart is resting
Your kindness makes a way for me
To give it all surrendering
And to your open arms my heart is running

I have found my home in you
The one that I was made for
I have found my home inside your love

I'm overwhelmed with thankfulness
The joy I'm living to express
In your open arms my heart is dancing

I have found my home in you
The one that I was made for
I have found my home inside of your love

I have found the safest place inside your arms of mercy, found
my home, found my home in you

I was lost but you found me
I heard your spirit calling
Now my heart rejoices, I am home

I was lost but you found me
I heard your spirit calling
Now my heart rejoices, I am home

I have found my home in you
The one that I was made for
I have found my home inside of your love

I have found the safest place inside your arms of mercy, found
my home, found my home in you

I found my home, found my home in you oh
I found my home, found my home in you
