With Your voice speak to me The words I long to hear

With Your hand guide my way Through my night till darkness fades

I just want You

I just want You

I just want You

With Your hand guide my way
Through my night till darkness fades

I just want You

I just want You

I just want You

There is no greater need You make my life complete You set me free

Your voice alive in me The sound of victory You speak to me

Your voice is the light Shining through the doorway Of my heart and comes alive When You speak into me

You're my life

You're my life

You're my life

You're my life

I just want You

I just want You

I just want You
