

## Back Street Joe

Kim Wilde

Dancing with Back Street Joe  
That was a time I loved  
When we were kids so young  
So long ago

Dancing with Back Street Joe  
Back in a time I loved  
We used to move all night  
That was a time to know

There comes a time in your life  
When you just wanna break free  
But now I wanna go back  
I wanna have him with me

Dancing with Back Street Joe  
We used to want that sound  
And everytime it played  
We used to hang around

There was music and  
There was rhythm and  
There was something I can't explain  
Out of nowhere he'd  
Move his shoulder  
And make you feel you could  
Live again

Then came a moment in time  
When I just had to be free  
But now I wanna go back  
I wanna go back and see  
That look in his eyes again  
And now on the streets  
I look for you Joe

Dancing with Back Street Joe  
Back in the streets I love  
We used to dance all night  
Was it so long ago ?
