Don't Say Nothing's Changed

Kim Wilde

Don't say nothing's changed with you I can hear it in your sighs
The way that you can't look me in the eyes It's spelling out bad news

So don't say it's the same we two No I can't say I'm surprised 'cos I could see it in your eyes And no you don't have to lie Baby you don't have to lie

Why can't it be like yesterday
The feelings gone
But I just want to say that I love you know
And I'm holding on for you
Is that a silly thing to do

So don't say nothing's changed with you

Now we're running out of time

And I've got to give up something that was mine

Oh baby doesn't it seem cruel

So don't say it's the same we two 'Cos we're already worlds apart And now the loneliness will start Oh boy you're breaking my heart Baby you're breaking my heart

So don't say nothing's changed with you
