

# Hey You!

Kim Wilde

It's Friday night, what can I do  
The week is done, I need some fun  
My friends are boring through and through  
I think I'll come and pester you

I'm gonna wait on the corner of the street for ya  
But I won't be responsible for the things that I do  
When I'm with you, hey I said

Hey! You! Come out and play  
Make those boys go away  
Let me lead you astray  
Hey! You! Come out and play

Don't be so scared, don't try to hide  
I see you watching from inside  
Open the door and come to me  
There's something I want you to see

I'm gonna wait on the corner of the street for ya  
But I won't be responsible for the things that I do  
When I'm with you, hey I said

Hey! You! Come out and play...

Hey! You! Come out and play...

You want it, you need it  
Your hunger let me feed it  
I want it, I need it  
Come and play, come and play with me

Hey! - Hey! - Hey! - Hey!

Hey! You! Come out and play...

Hey! You! Come out and play...
