

Is It Over

Kim Wilde

Well there's a rumour out
Have you heard anything ?
And if you ask me now
Will I answer your question ?
In your eyes - I could hear you

Is it over
Is it over (or has it just begun)
Is it over
Is it over (or has it just begun)

You never thought it would get to this
And now you're sick with love
Do you think I can heal you
In my mind - I still hear you

Is it over (or has it just begun)
Is it over
Is it over (or has it just begun)

If I thought I was part of you
I would beg you to stay
But I can't live my time in this world
With the felling this way

Is it over (or has it just begun)
Is it over
Is it over (or has it just begun)

And so you ask me now
Have you done anything
And when you're reaching out
Do I still wanna hold you
In my mind - I can hear you

Is it over
Is it over (or has it just begun)
Is it over
Is it over (or has it just begun)
