Janine

Kim Wilde

Janine - what's going on Janine - I know that something sure is wrong there's lights out on the road And they're searchin' for you Janine - life wasn't fair Janine - when you got home and no-one cared But running from your life You let the vultures get through And they feed on you, they feed on you Chorus: So what you gonna do when the lights burn out Janine What you gonna do when your light burns out Janine - you want the truth Janine - you'll find the pressure's now on you You wanted all the world But they've taken it all And they're bleeding you, they're bleeding you So, what you gonna do when the lights burn out Janine What you gonna do when your light burns out Heh Kid, don't hesitate Don't stick around now I bet you can hardly wait Oh what a time I'll give to you But it's never true Janine - you'll soon be there Janine - you're on a wing and a prayer But Angels love their own And they're reaching out for you Janine Oh Janine
