

Shoot to Disable

Kim Wilde

Mirrored in your face
Is a look that says it all

Boy I'm slow
I've been uncertain
Just couldn't be sure
Now I know

You say it's over
But just how long have you known
(You better go now)
But as you leave me

Shoot to disable
Shoot to disable

Maybe I got careless
Maybe it's true I ran too fast
But on recollection it didn't do much
So I pass

You're such a hard man
Why can't you take steady aim
(Just get it over with)
Don't fool around now

Shoot to disable
Shoot to disable

Oh what a fool I was to love
