

Staying With My Baby

Kim Wilde

(I'm gonna stay... (I'm gonna stay...))

The pain inside
When you think you love another
But can't decide which way to go
And you're searching for a reason to leave his side
In time you'll see
It has to be this way
And though it hurts to say
I'm gonna be staying with my baby

(I'm gonna stay... (I'm gonna stay...))

I know he's good for me
I can see that he's feeling down
(I'm gonna stay... (I'm gonna stay...))
But I know he cares for me
And in time he will come around
So dry your eyes, before you turn away
You must know that I'll always love you
But now, I'm staying with my baby

You used to say
I should maybe take it further
And leave one day
My family - but I'm responsible for them
They depend on me
So now you see, our love is history
I'm sad it has to end
But I'm gonna be staying with my baby

(I'm gonna stay... (I'm gonna stay...))

I know he's good for me
I can see that he's feeling down
(I'm gonna stay... (I'm gonna stay...))
But I know he cares for me
And in time he will come around
So dry your eyes, before you turn away
You must know that I'll always love you
But now, I'm staying with my baby
(I'm staying with my baby... yes I am)

Please understand
He's just a desperate man
Who's doing all he can
So I'm going back

(I'm gonna stay... (I'm gonna stay...))

I know he's good for me
I can see that he's feeling down
(I'm gonna stay... (I'm gonna stay...))
But I know he cares for me
And in time he will come around
(I'm gonna stay... (I'm gonna stay...))
I'm gonna stay
(I'm gonna stay... (I'm gonna stay...))
I'm gonna stay
