## **Too Late**

Hard to get a view of things Though a broken window Hard to understand the reasons Why love comes and goes Just when you turn a corner And think that you'll find Some peace of mind Confusion will strike you blind

It's too late to turn back now It's too late to turn it all around It's too late, no words to say I know it's gonna be another lonely day I can't find a reason I should stay

Hard to understand the reasons Why love comes and goes Just when you turn a corner And think that you'll find Some peace of mind Confusion will strike you blind

It's too late to turn back now It's too late to turn it all around It's too late, no words to say I know it's gonna be another lonely day I can't find a reason I should stay

(I know, I know)
I know it's gonna be another lonely day
(I know, I know)
I know it's gonna be another lonely day
Confusion will strike you blind

It's too late to turn back now It's too late to turn it all around It's too late, no words to say Cos I know it's gonna be another lonely day But I can't find a reason I should stay
