

Water On Glass

Kim Wilde

1. Cascading down. There's a sound vaporising into vision.

It's a sound in my head that I feel and it shuts me in a prison.

X: Say it won't last, say it will pass.

Always the sound in my brain. Can you hear it? (Can you hear it?)

R: Water on glass running down again.

Water on glass, that sound.

Water on glass running round again.

Help me, the sound of running water's coming down.

2. Dancing away like the lights on a moving coloured river.

Sounds in my head seem to run and again I'm feeling shiver.
