

# Who's to Blame

Kim Wilde

Just like in a dream  
I'm trying to scream  
But no-one can hear me when I call  
I feel paralysed  
Unable to cry  
While watching the world around me fall

Heard it on the news today  
What are we doing to our world  
There's got to be a better way  
And we've got to choose it

And while we destroy  
Our children will grow  
Not missing the things they'll never know  
A crime against them  
Against you and me  
A crime against all humanity

Heard it on the news today  
What are we doing to our world  
There's got to be a better way  
And we've got to choose it

Don't you know that a day will come  
To everyone  
When they'll ask us to explain  
Are we going to say that we weren't to blame  
Who else could there be

Just like in a dream  
I'm trying to scream  
I feel paralysed  
Unable to cry  
What are we doing

Heard it on the news today  
What are we doing to our world  
There's got to be a better way  
Or we're gonna lose it

Who's to blame?
