

# Friend Like You

Kimberley Locke

Lookin' back in the past  
Remember when we used to be so close  
But now who knows

I can't believe that I could be  
So unaware of your vindictive ways  
The games you play

You violated all the trust we had  
When you were doin' my man

Who needs an enemy  
When I've got a friend like you?  
After all that we've been through  
You turned on me, I don't need you

Who needs an enemy  
When I've got a friend like you?  
What they're sayin' must be true  
You turned on me, I don't need you

I was there when you were down  
I let you in, I gave you all I had  
Wish I could take it back

Now I see, what you're about  
You run your mouth  
All you care about's yourself  
You're somethin' else

You violated all the trust we had  
With all the lies that you spread

Who needs an enemy  
When I've got a friend like you?  
After all that we've been through  
You turned on me, I don't need you

Who needs an enemy  
When I've got a friend like you?  
What they're sayin' must be true  
You turned on me, I don't need you

Get a life, you're outta line  
'Cuz all you do is live through mine  
Got a little too much time on your hands

I never thought that it would get to be this way  
You can't even look me in my face

Who needs an enemy  
When I've got a friend like you?  
After all that we've been through  
You turned on me, I don't need you

Who needs an enemy  
When I've got a friend like you?

What they're sayin' must be true  
You turned on me, I don't need you

Who needs an enemy  
When I've got a friend like you?  
After all that we've been through  
You turned on me, I don't need you

Who needs an enemy  
When I've got a friend like you?  
What they're sayin' must be true  
You turned on me, I don't need you
