

# Nobody but You

Kimbra

Don't wanna be a broken record  
Don't wanna sing the same refrain  
But I can't stop, I can't stop  
I'm doing it again

I don't wanna fight the feeling  
But it keeps fighting me  
I can't stop I can't stop  
Love is frightening

I know I got you going in circles  
And you've been running through my mind  
I think I've finally found the nerve this time

To say 'Baby!  
I don't want nobody but you!'  
Cos there ain't nobody who can take all my doubts  
And turn them upside down now  
Baby! I'm not gonna get it confused!  
I'll come running with my heart on the line  
I'm gonna give it all to you this time

Maybe I'm a little hasty  
A little bit ahead of myself  
But I can't stop, I can't stop  
I need your help

My mind is like a rollercoaster  
But maybe you should ride with me  
No I can't stop, I can't stop  
It's so exciting!

I know I had you going in circles  
I've been swinging you from side to side  
I think I've finally found the nerve this time

To say 'Baby!  
I don't want nobody but you!'  
Cos there ain't nobody who can take all my doubts  
And turn them upside down now  
Baby! I'm not gonna get it confused!  
I'll come running with my heart on the line  
I'm gonna give it all to you this time

Listen, I stumble and I fall  
I get so emotional  
The voices in my head  
They made me scared  
But I needed some time  
Just to make up my mind  
But now your voice is clear to me  
It's singin' in my ear

'Baby!  
I don't want nobody but you!'  
Cos there ain't nobody who can take all my doubts  
And turn them upside down now

Baby! I'm not gonna get it confused!  
I'll come running with my heart on the line  
I'm gonna give it all to you this time

Upside down now  
Baby, don't want nobody but you  
Cos there ain't nobody  
Upside down now  
Baby, don't want nobody but you  
Cos there ain't nobody
