

Chasing You

Kina Grannis

You never knew when to start
So many chances, boy, you could've stole my heart

Never knew when to stop
You could've dropped it, boy, you could've lost it all

But the truth is, well I probably would've called
If you didn't, 'cause I've been chasing you all along

I've been chasing you, pretending I was on top
I've been after you, trying not to be dropped
No, you never knew, 'cause I always made it flip
flopped
I've been chasing you
I've been chasing you

Yeah, you always came back around
It got so twisted, you beggin' me on the ground

Like I could throw you away
When I'm just hoping, praying that you will stay

'Cause the truth is, well I probably would've called
If you didn't 'cause I've been chasing you all along

I'm sorry for my game
My silly child play
But I felt I needed the upperhand to set this straight
'Cause you're so sweet
One of a kind
And all I want
Is you to be mine
