

Forever Blue

Kina Grannis

When I was a child
I was heavy hearted
Knowing all that started to an end
I dreamt of a day
No one ever left here
Cried out to the night to find a way

And it broke my heart
When I felt the truth
My father has a father too
Don't understand how we'll make it through
Will I be forever blue?

Everyday I've known
It grows only deeper
Why can't I not keep her here for good
So I'll take the waves
Floating when I'm weaker
Waiting through the water missing you

And it broke my heart
When I felt the truth
My father has a father too
Don't understand how we'll make it through
Will I be forever blue?

Play to mother
We're still fighting
We're all trying to make it home for you

All my love is yours forever
Take it with you
Take it with you

All my love is yours forever
Take it with you
Say you'll never go

When I was a child
I was heavy hearted
