## **Forever Blue**

**Kina Grannis** 

When I was a child I was heavy hearted Knowing all that started to an end I dreamt of a day No one ever left here Cried out to the night to find a way

And it broke my heart When I felt the truth My father has a father too Don't understand how we'll make it through Will I be forever blue?

Everyday I've known It grows only deeper Why can't I not keep her here for good So I'll take the waves Floating when I'm weaker Waiting through the water missing you

And it broke my heart When I felt the truth My father has a father too Don't understand how we'll make it through Will I be forever blue?

Play to mother We're still fighting We're all trying to make it home for you

All my love is yours forever Take it with you Take it with you

All my love is yours forever Take it with you Say you'll never go

When I was a child I was heavy hearted
