

Make Me

Kina Grannis

Rainbows, I can't find them
Past the raindrops where the light bends
Where the stories tell of people
Finding beauty where the dark's hold lets go

If you want to smile with me
Hold me close and lie with me
If you want to die with me
Handle my heart carefully
Make me believe you

I've been searching dreary weather
For a cloud that's line in silver
But the rain keeps on falling
And my love, I am calling for you

If you want to smile with me
Hold me close and lie with me
If you want to die with me
Handle my heart carefully
Make me believe you

You can't change the hurt you've done
Please don't let us come undone
Make me forget
Make me forgive
Make me believe you

If you want to smile with me
Hold me close and lie with me
If you want to die with me
Handle my heart carefully
Make me believe you
Make me believe
