

This Far

Kina Grannis

You knew it's harder when you hold me
You get me searching for the ceiling
Love tried to forget things
It's so hard
It's so hard

So I'll keep going through the motions
Creating comfort where there is none
Coming to terms with the notion
I'll be okay
Okay

When rain falls down on me so hard
The winds unravelling me don't start
An ocean swallowing up my heart
But I've made it this far
I've made it this far

It's hard to see happy ending
When you don't see how you can mend things
But life is long and forgiving
And it goes on and on and on

When rain falls down on me so hard
The winds unravelling me don't start
An ocean swallowing up my heart
But I've made it this far

And I'll keep wishing on a bright star
That we'll keep driving all the right cars
And I'll keep singing when it goes dark
Cause I've made it this far
I've made it this far
I've made it this far
