

Lay Some Happiness On Me

Kind of Like Spitting

Lay some happiness on me
Show the brighter side you'll see
No more loneliness to be
Lay some happiness on me

Tell me I'm great and I'll be greater build me up and I'll fly
Love me now and be glad later you can kiss your worries goodbye

Lay some happiness on me
Show the brighter side you'll see
No more loneliness to be
Lay some happiness on me

Empty that cup of trouble and sorrow the sooner or better for you
Fill it up with a happy tomorrow we got some livin' to do

Lay some happiness on me
Show the brighter side you'll see
No more loneliness to be
Lay some happiness on me

Cuddle me up and I'll squeeze tighter, honey kiss me do
A good good lover makes a bad bad fighter and I'm not picking on you

Lay some happiness on me
Lay some happiness on me
