

Carry Me Away

King Charles

Carry me away my lady
Carry me until the dawn
Escape with me and we'll travel far from
Here meet me with the dawn

When the waters spat with rage
All of the world became a haze
I know I could always see your face

My world is calling me my baby
Carrying me back to my life
And I'll see you again you are my
Wildest wildest friend

When the waters spat with rage
All of the world became a haze
I know I could always see your face

So sing to the seven seas
All of the oceans far between
Carry us oh carry us away
Ever wandering ere by night
Ever wandering by day
And I've been chasing my tail alright
Chasing my time away

When the waters spat with rage
All of the world became a haze
I know I could always see your face

So sing to the seven seas
All of the oceans far between
Carry us oh carry us away
I'm prepared to take my time
Let it go, let it go away
