

Polar Bear

King Charles

When I saw this girl
She was far beyond pretty
She was a dream that my mind had captured from my sleep
I told her: "You looked just like an angel" over me
I wanted every part of her
But how wrong could I have been
I felt like a man
Man as an animal
My senses were desperate to be fed
Lost in lust for this girl
She had my mind
I was giving her designs of my soul

She's got the hot blood of a polar bear, the cool head of a crocodile. (4x)

When I saw this girl she was clawing at my skin
The lines of age show where she has been inside my mind
Never will she end as never did she begin
As long as there is man alongside it will be his sin

She's got the hot blood of a polar bear, the cool head of a crocodile. (4x)

Cold white skin she's as pure as an angel
A vision of a maiden with a touch of the devil
Cold hands upon you sink into your core
She's pure as the driven snow I'm sure
She's the anchor round your neck when you try to swim
She's a snake that
Leads you to the apple of sin
Sliding serpent, creature of hell
Many times she's come for me, I know her well
For she was, was doomed to die
To die alive
Where there is no end
Just unending time

She stole my mind
She stole my heart
Tried to steal my soul from me
My heart cannot love if my soul isn't free

She stole my mind
She stole my heart
Tried to steal my soul from me
My heart cannot love if my soul isn't free

Tried to steal my soul from me
My heart cannot love if my soul isn't free
When I saw this girl
She's got the hot blood of a polar bear, the cool head of a crocodile...
