

Get Thy Bearings

King Crimson

Get your bearings, know your time.
Don't you worry, weather's fine.
All the world knows what I'm saying,
All the world knows what I'm saying,
The world knows fine well.

Get together, work it out,
Simplicity is what it's about.
All the world knows what I'm saying,
All the world knows what I'm saying,
The world knows fine well.
