## Ladies of the Road

## **King Crimson**

A flower lady's daughter
As sweet as holy water
Said: "I'm the school reporter
Please teach me", well I taught her.

Two fingered levi'd sister
Said, "Peace", I stopped I kissed her.
Said, "I'm a male resister",
I smiled and just unzipped her.

High diving chinese trender Black hair and black suspender Said, "Please me no surrender Just love to feel your Fender".

All of you know that the girls of the road Are like apples you stole in your youth. All of you know that the girls of the road Been around but are versed in the truth.

Stone-headed Frisco spacer Ate all the meat I gave her Said would I like to taste hers And even craved the flavour

"Like marron-glaced fish bones Oh lady hit the road!"

All of you know that the girls of the road Are like apples you stole in your youth. All of you know that the girls of the road Been around but are versed in the truth.
