```
Lucy, you stay here... the tomb is warm
Why don't you play with the dolls...
The dolls on the wall
I am not the guy I used to be,
not since he put me away
I left half my brain behind, back in that crazy place
Does that mean... that I am insane
Does that really mean... that I am to blame... NO NO NO
Is it true what they say... little girls don't cry
Is it true what they say... Lucy look at me
I am not the guy I used to be,
not since he put me away
I left half my brain behind, back in that crazy place
Does that mean... that I am insane
Does that really mean... that I am to blame... NO NO NO
Into the night I go, and you can't follow me
Into the night I go, and you can't follow me
I will be your misery, I'm gonna be your HELL
I will be your misery, and I wish you well, in HELL
I'm digging graves, seven deadly tombs
I'm digging graves, below that crazy moon
I will be your misery, I'm gonna be your HELL
I will be your misery, and I wish you well, in HELL
McKenzie, how could you think I'd forget
SOLO: Andy - SOLO: Herb
All graves done... I'm so clever
Seven headstones in all... saying "Lucy Forever"
I am not the guy I used to be,
not since he put me away
I left half my brain behind, back in that crazy place
Does that mean... that I am insane
Does that really mean... that I am to blame... NO NO NO
Into the night I go, and you can't follow me
Into the night I go, and you can't follow me
I will be your misery, I'm gonna be your HELL
I will be your misery, and I wish you well, in HELL
I'm digging graves, seven deadly tombs
I'm digging graves, below that crazy moon
SOLO: Herb
Into the night I go, and you can't follow me...
