Moonlight

King Diamond

In the moonight I see children searching for thier souls In the moonlight Can you hear them howling on the wind Night after night, I see them passing by They whiper in my ear, "We know you are there." I see no eyes, I guess they must be blind Wish that I could lead them To a better world than mine In the moonlight Not a bird is singing lullabyes In the moonlight I hear a churchbell ring it's evil song Night after night, I see them passing by They whiper in my ear, "We know you are there." I see no eyes, I guess they must be blind Wish that I could lea d them To a better world than mine In the moonlight.... In the moonlight Night after night, I see them passing by Wish that I could lead them To a better world than mine In the moonight I see children searching for thier souls In the moonlight I hear screams of pain from a thousand years ago Raven spread your wings, lead the spirits to thier home Raven spread your wings, lead the spirits to thier home To thier home In the moonlight.... In the moonlight
