

# The Girl in the Bloody Dress

King Diamond

The girl in the bloody dress, appearing right before my eyes  
The girl in the bloody dress, crossing over from the other side

I see the moon in the black of night  
I see her dirty face, oh  
The little girl in the bloody dress, closer, and closer

I feel her eyes in my soul  
Looking around seeing all I have done  
All I have done with my life

The girl in the bloody dress, I know why she's here tonight  
The girl in the bloody dress, looking for  
Something deep inside my mind

I see the moon in the black of night  
I see her dirty face, oh  
The little girl in the bloody dress, closer, and closer

I feel her eyes in my soul  
Looking around seeing all that I have done  
All I have done... with my life

Do not be afraid there won't be any  
pain, I... Need your soul  
No no no, my soul is full, of sin

The girl in the bloody dress, she's hiding her hands in the dark  
The girl in the bloody dress, carrying the devil's mark

I see the moon in the black of night  
I see her dirty face, oh  
The little girl in the bloody dress, closer, and closer

I feel her hands on my own  
Holding them down, they are so full of blood  
Her brother's blood  
And my soul is no good at all, you got to move on now  
You gotta move on before the dawn is here

I feel her hands on my own  
Holding them down, they are so full of blood  
Her brother's blood .. Red

I know I let my brother down, to hell, he must go  
No no no... You still have time
