King Gizzard & The Lizard Wizard

Searching for the way
Try to brighten up my day
Searching for the gold
Inside the rainbow
Looking through rose-coloured glasses won't work
It won't change anything

My body's not a temple
It is a vessel
And a blank slate
An empty hard drive
Doctor please, I'll do anything
Alter me, let me see
Give me more
I want to see the world differently

Searching... searching...
Searching... searching...

I've been born again
I see the light
It's in my face
I'm analyzing information
Now I am a god
