## **Iron Eagle (never Say Die)**

**King Kobra** 

I can do anything when I choose Got everything but I got nothing to lose Go anywhere from heaven to hell I might find the devil, you can never tell

There's a thousand hills and valleys A million dams and streams An ocean of eternity Between my hopes and dreams

Never say die, iron eagle Nothing's forever, now or ever Never say die, iron eagle Never look back, never say die

Don't try and bring my soul to the ground My spirit remembers old mountain magic sounds Against all odds I'll come out on top 'Cause I never learned the meaning of what meant stop

There are walls and there are bridges But no problems when you're free An adventure past the horizon always beckons me

Never say die, iron eagle Nothing's forever, now or ever Never say die, iron eagle Never look back, never say die

Never say die, iron eagle Nothing's forever, now or ever Never say die, iron eagle Never look back, never say die

Never say die, iron eagle Nothing's forever, now or ever Never say die, iron eagle Never look back, never say die
