

# Shadow Rider

King Kobra

Midnight is my time  
I'm the Shadow Rider  
I come from the other side  
I'm the Shadow Rider

Dark shadows and shifting eyes  
There ain't no trust on the street  
Broken windows and alibis  
You can feel the tension in the August heat

I hear the call from the firing line  
I hear the sound of the bell  
When there's some action, I make it mine  
And I do it well

I'm lookin' for danger signs  
Don't let me catch you out of line  
Midnight is the time for the Shadow Rider

Every night is another scene  
And I'm a part of it all  
Life is more than a magazine  
Cause the harder you run, the harder you fall

A chain reaction of dominoes  
If your back's to the wall  
I'll stand beside you and take the blows  
I'll catch you if you fall

A chain reaction of dominoes  
If your back's to the wall  
I'll stand beside you and take the blows  
I'll catch you if you fall

I'm lookin' for danger signs  
Don't let me catch you out of line  
Midnight is my time, I'm the Shadow Rider
