Will I Come

"I just want you to know" Well, if only I had a heart to rip into Because you owe me A breakdown that would not include Not to stay around And see this night through Girl, don't stay around And bathe with me in blue Just one of those things Just one of those things

I just want to let you know

"You don't even know what you're doing!" "No! Jesus Christ! Oh my God!? No, no dear God, no, Christ!"

King Krule
