

Father mine

King Leoric

Father oh my beloved father
You told me to be true
More in time than necessary
Being in time was you

Father oh my so missed father
You told me to carry on
Never to give up destination
You told me to be strong

Father mine, dying so young you left me behind...

You told me not to believe in lies
you told me to be true
You told me how to let the nail go
you told me to be true
You told me how to fight for Mother
you told me to be true
You told me to respect the judgement
you told me to be true

Father mine, dying so young you left me behind...
