

Let it loose

King Leoric

You are fighting, you are fighting
An inner voice tells you to carry on
You're bleeding, oh, you're dying
The demon in your soul just set it on

Carry on, carry on, carry on, carry on
but when your head just hits the wall...

Let it loose let it loose
to capture is to kill just let it loose
Let it loose let it loose
to save your soul it's better: let it loose

You're dying, you are screaming
your soul can't get out of what's worth to fight (for)
you'r crawling, you are creeping
the pain it is so well-known, it is yours

Carry on, carry on, carry on, carry on
but when your head just hits the wall...

Let it loose let it loose
to capture is to kill just let it loose
Let it loose let it loose
to save your soul it's better: let it loose
