Let it loose

King Leoric

You are fighting, you are fighting An inner voice tells you to carry on You're bleeding, oh, you're dying The demon in your soul just set it on

Carry on, carry on, carry on but when your head just hits the wall...

Let it loose let it loose to capture is to kill just let it loose Let it loose let it loose to save your soul it's better: let it loose

You're dying, you are screaming your soul can't get out of what's worth to fight (for) you'r crawling, you are creeping the pain it is so well-known, it is yours

Carry on, carry on, carry on but when your head just hits the wall...

Let it loose let it loose to capture is to kill just let it loose Let it loose let it loose to save your soul it's better: let it loose
