

Thundeforce

King Leoric

When we were younger, we were children of fate
All things were stronger, the things that we hate
But we resisted, and one thing made us strong
Our live got twisted, Metal is the one!

We are the priests of thunder, we are the prophets of
sound,
We´ll never go under, strong is our bound,
We are the healers, to heal all the blind,
Metal reveals us in our mind

We are fighting the demons, we are fighting the dark,
Forever with swords in our hands
We bring you salvation, we open the hearts,
together, forever we stand...
We´re the Thunderforce...!!!

We are the wizards through time and space
Like holy blizzards we´re winning the race
There is no mercy, for people who try
to stop our mission, we won´t die!

Hold up your head, Heavy Metal means Pride!
Nothing instead, no more to hide
No more to fear, no more to cheat
Look, we are here, no defeat!

We are fighting the demons, we are fighting the dark,
Forever with swords in our hands
We bring you salvation, we open the hearts,
together, forever we stand...
We´re the Thunderforce...!!!
