

Winternights

King Leoric

I step step by step onto this lonely road
When I'm stepping home this night
Through the snow and the dark my enemies are far
far away this night from my mind

I can feel them in each and every step
Forward the snow... beyond the trap?

In this Winternight I swear to live forever
In this Winternight I swear to carry on
In this Winternight I crawling out of nowhere
In this Winternight I will not end my quest

This is my off road - is this the end of where to go?
I cannot follow it anymore
I don't know where to go, the snow grows many more

I can feel them in each and every step
Forward the snow... beyond the trap?

In this Winternight I swear to live forever
In this Winternight there's no enemy to bring me down
In this Winternight the snow, the dark, the fog and ever
In this Winternight I swear to carry on
