

## (Why Are We) Trapped?

King Missile

Why are we trapped here in the dark so long?  
It's so wet and dark and cold  
We've done everything you told us to do  
We've done everything you told us to do

Are we going to have to suffer forever?  
Why are we trapped here in the dark so long?  
We've done everything you told us to do  
We've done everything you told us to do

We don't belong here  
We were meant to sing  
Let us out, let us

We're drowning in quicksand  
We're freezing in the water  
We hallucinate in the darkness  
We're praying for deliverance

We've done everything you told us to do  
We've done everything you told us to do

We don't belong here  
We want to go out and play  
We don't belong here  
We were meant to sing  
Let us out, let us out
