## (Why Are We) Trapped?

## **King Missile**

Why are we trapped here in the dark so long? It's so wet and dark and cold We've done everything you told us to do We've done everything you told us to do

Are we going to have to suffer forever? Why are we trapped here in the dark so long? We've done everything you told us to do We've done everything you told us to do

We don't belong here We were meant to sing Let us out, let us

We're drowning in quicksand We're freezing in the water We hallucinate in the darkness We're praying for deliverance

We've done everything you told us to do We've done everything you told us to do

We don't belong here
We want to go out and play
We don't belong here
We were meant to sing
Let us out, let us out
