

# Chariot Song

King's X

If I could only have one thing  
Give me the loving  
A shot from the left and I fall down, cover me  
I hear the music again all around  
Are you going my way?  
Who can I talk to without a sound?  
Out of the planet comes Gretchen with faith, hope and love

Never the dull of a moment  
Ever to ever be true  
Touching the sky just to hold it  
Maybe it won't be so blue  
I hear the music again all around  
Are you going my way?  
Who can I talk to without a sound?  
Out of the planet comes Gretchen with

Give me a not a little bit of love without measure  
Now and ever on to you

Let me Hear the beat  
To make my heart beat strong  
Swing down sweet chariot stop  
Let me ride to take a look at what I'm looking at  
A little spark something to analyze

Let me hear the beat  
To make my heart beat strong  
Swing down street chariot stop  
Let me ride to take a look at what I'm looking at  
A little spark something to analyze

If I could only have one thing  
Give me the loving  
A shot to the left and I fall down, cover me  
Ever to ever be true, touching the sky just to hold it  
I hear the music again all around  
Are you going my way  
Who can I talk to without a sound?  
Out of the planet comes Gretchen with not a little bit

Give me not a little bit, love without measure  
Now and ever on to you  
Give me not a little bit, love without measure  
Now and ever on to you  
I hear the music again all around  
Are you going my way?  
Who can I talk to without a sound?
