

Finished

King's X

You caught my eye, couldn't take them off of you
And I knew that you felt the same way too

Finished before it started
One look then we parted

I couldn't speak, I felt one with you
I was afraid, what else could I do

Love is patient and kind
Bears and believes all things
Some say its blind
But I can't see a thing

Finished before it started
One look then we parted
