

Fly

King's X

No matter what you do
Always somebody who
Doesn't like it
No matter what you do
Always somebody who
Don't understand it

Fly above the rainbow
Fly across the sea
Fly across the future
Fly over me

Hey brother find a way
Around you everyday
Take care of you
Take it
Hey sister virgin eyes
Stand up to fight the lies
Take care of you
Take it

Fly above the rainbow
Fly across the sea
Fly across the future
Fly over me

He didn't care for you
He isn't there for you
And you love him
But you don't like him
She isn't there for you
She puts the blame on you
Still you need her
Gonna leave her

Fly above the rainbow
Fly across the sea
Fly across the future
Fly over me

No matter what you do
Always somebody who
Doesn't like it
