

Power Of Love

King's X

Trapped inside, these walls surround me
Closing in it's hard to breathe
It's okay, I hear the shouting
What is left, the will to be

The power, power of love
Takes me, takes me from here
The power of love

On my hand I have no scars
In my heart's a weary beat
If you go I will follow
Where you are I will be

The power, power of love
Takes me, takes me from here
The power of love

The power, power of love
Takes me, takes me from here
The power of love

On my hand, I have no scars
In my heart's a weary beat
If you go I will follow
Where you are I will be

Everybody
Power, power of love
Takes me, takes me from here
The power of love

Power, power of love
Takes me, takes me from here
The power of love

Give me power of love
