

The Burning Down

King's X

Where are you tonight?
I don't seem to know you
No, I'm not alright
Where are you tonight?

And my heart is nearly gone
There's not much left to offer
If I could somehow know
I could stop the burning down

Where are you tonight?
Are you even really out there?
I won't put up a fight
Where are you tonight?

And the world keeps spinning 'round
A vicious cycle turning
(Vicious cycle turning)
Some of them know love
Some of us know the burning down
