

When You're Scared

King's X

It's really easy to hate everyone
When you're scared
Making comparisons,
Faking your friends
When you're scared

Then comes the day
Everything's taken away
Everyone's shame is the same

If she gives me a sword and a lake
Will I mistake it
If she hands me my head on a plate
How will I take it
If I'm scared

It's really easy to take all the blame
When you're scared
All of your ornaments fall to the floor
When you're scared

All the decisions to make
All of your life is at stake
Under your feet there's a quake

If she gives me a sword and a lake
Will I mistake it
If she hands me my head on a plate
How will I take it?
If I'm scared

Love twisted to break
And its your life that you hate
Nothing is easy to take

If she gives me a sword and a lake
Will I mistake it
When she hands me my head on a plate
Then will I break it?
If I'm scared
