

You're The Only One

King's X

You took me to the top
You took me from the cold
You took me from myself
You broke my heart of stone

Do whatever you want
Do whatever you need
Do whatever you like
Do whatever you please

'Cause you're the only one that can do this to me
You're the only one who can make me crazy
My head is spinning I'm going wild
Oh yeah

You are my fantasy, and my reality
You always come around, after you bring me down

Do whatever you want
Do whatever you need
Do whatever you like
Do whatever you please

'Cause you're the only one that can do this to me
You're the only one who can make me crazy
My head is spinning I'm going wild
Oh yeah
