

# Get It Back

King the Kid

This night has stopped for us  
My clock's no longer counting down for the sun to rise  
As I close my eyes

The lights up in the sky  
Are the only lights for miles until the day resumes  
And I stray from view

It doesn't really matter what we say  
It doesn't really matter what's in the way  
The glass that cannot shatter does not break  
This time around I will not look down

Can we get it back, can we get it back  
It's where we come from and where we grow old  
I'll be dancing all alone for you

I hear it in your breath  
And feel it in the beat of your chest  
This dance is just beginning  
And the sky is the limit for you

The day has rolled around  
With every waking thought I know I'm alone again  
Alone again

I'll close my ears and hide my eyes and push it underground  
but what am I waiting for  
Am I waiting for

It doesn't really matter what we say  
It doesn't really matter what's in the way  
The glass that cannot shatter does not break  
This time around I will not look down

Can we get it back, can we get it back  
It's where we come from and where we grow old  
I'll be dancing all alone for you

I hear it in your breath  
And feel it in the beat of your chest  
This dance is just beginning  
And the sky is the limit for you

Breathe in, Breathe out  
It's simple but it tells me all you  
Could never say  
Breathe out Breath in  
And hold it all inside

Can we get it back, can we get it back  
It's where we come from and where we grow old  
I'll be dancing all alone for you

I hear it in your breath  
And feel it in the beat of your chest  
This dance is just beginning

And the sky is the limit for you
