

# Name In Lights

King the Kid

She said listen to me now  
I can see that you strung me along you  
Left me at the scene of the crime  
I believed we'd last forever now it's over

Don't live your life  
wondering if the life you live  
could be more than it is  
That's why we fell out  
I needed to know

So is there anybody out there (OHHHH OHHH WHOA OOOH)  
That stops my heart from the very start  
Well is there anybody out there  
cause when stars align I'll know inside  
I'll see her name in lights  
I'll see her name in lights  
I'll see her name in lights

Waiting to be found  
Roamed the streets for a sign that will point to  
Somebody to bring me to one knee  
Still alone but not forever

She's out there somewhere  
Well I saw her in my dreams  
Last night so everything will be alright  
I'm sure that in a moment we would know

So is there anybody out there (OHHHH OHHH WHOA OOOH)  
That stops my heart from the very start  
Well is there anybody out there  
cause when stars align I'll know inside  
I'll see her name in lights  
I'll see her name in lights  
I'll see her name in lights

Not even two words in before I felt the warmth behind your eyes  
It's a funny thing how destiny can take you by surprise  
I found you I know you feel it inside  
I found you so love, come on

So is there anybody out there (OHHHH OHHH WHOA OOOH)  
That stops my heart from the very start  
Well is there anybody out there  
Cause when stars align I'll know inside  
I'll see her name in lights  
I'll see her name in lights  
I'll see her name in lights  
I'll see her name in lights  
I see your name in lights
