## **Friends In Spirit**

## **Kingdom Come**

Look at us, we're so in need Love can't wait for you to cheat To spread it's wing of pain and hate Weak enough we call it fate

Thousand years, we never learned Signing papers, promising terms

Friends in spirit, that's the key Sharing pain and victory It's all in us, slam the bell Reaching heaven, fighting hell

Hunting you with perfect skills
It sucks you in and breaks your will
Once you're caught into the trap
It spits you out and starts to laugh

Thousand years, we never learned Signing papers, promising terms

Friends in spirit, that's the key Sharing pain and victory It's all in us, slam the bell Reaching heaven, fighting hell

Diamond rings they come and go Like Juliette and Romeeo Starting out, find a friend A solid base until the end
