

## Friends

## Kingdom Come

You feel the way I do  
Love has changed its course  
Crashed upon the shore  
I can see it in your eyes  
I can feel the hurt,  
Far beyond the word 'good bye

Now that it's over  
Now that we're at the end  
Can we start over  
Back to when we were FRIENDS

Love, more than just a touch  
More than just a word  
Many times it hurts  
I believe in you and I  
Think I've found a way,  
We can stand the test of time

Now that it's over  
Now that we're the end  
Can we start over  
Back to when we were FRIENDS

Now...  
Now...  
WE CAN start over  
Back...
