

# No Murderer I Kiss

## Kingdom Come

Talking of evil  
Screen's running high  
Pointing our fingers

So tired of watching  
The sick in disguise  
Behaving like winner

No one will give in  
No one is right  
It's killing us slowly

Watching the warlords  
Preaching the fight  
Abusing the holy

Watching fanatics  
Polluting our mind  
The ongoing battle

We gave 'em our tanks  
Pretending we're friends  
Not able to settle

Having to fight  
Ain't easy to do  
When death is your mission

But us doing nothing  
Could lead to regret  
A deadly decision

Let 'em kill people  
Let 'em destroy  
And let us forgive

If that's what you're saying  
No way I would join  
No murderer I kiss

Let's save the planet  
By killing us all  
Cause we never learn

Already burned  
And history shown  
The wrong way to turn

Whatever we do  
We can't cure it all  
It's spreading like cancer

Again and again  
Wish I would know  
Just got no answer

Some of us learn

Some of us won't  
The ongoing misfit

Deeply disturbed  
Want to be heard  
By storming the cockpit
